Welcome to the FERNBACH customer portal!

FlexFinance meets all the requirements that have to be fulfilled throughout a credit lifecycle!

The FlexFinance Suite increases efficiency and transparency to reduce costs and risks to a significant and sustainable degree – to operate even more successfully in the marketplace!

But the success of a project does not depend solely on the quality of the software. It is also necessary to use procedures and methods adapted to the software to ensure a successful implementation.
We do **not provide** a software as **an empty cover**, which will then be ready for use by customizing at the customer's premises.

We supply a **factory-configured system**, ready for the customer's requirements and needs, which is able to process their business portfolio ex works.
This allows our technology to be used more quickly in day-to-day business and makes the work process more efficient.

In order to guarantee an easy start and quick handling of the software, a detailed **online documentation** is available to the customer. We also welcome customers to our **customer portal** and **service desk**.
